B. COVID-19 Pandemic-Related Notifications

On January 10, 2022, MED-Project submitted an eighth and final COVID-19 pandemic response notification, which indicated that no Kiosk Drop-Off Sites or Mail-Back Distribution Locations remained restricted.

C. Reporting Period Operations Overview

During the Reporting Period, priority was given to establishing Kiosk Drop-Off Sites throughout the County, and performing outreach to eligible pharmacies, hospitals, and clinics with on-site pharmacies, and Law Enforcement Agencies (“LEAs”). During the Reporting Period, MED-Project’s Program collected and disposed of Unwanted Medicine from 60 Kiosk Drop-Off Sites and distributed Mail-Back Packages at 52 Mail-Back Distribution Locations. MED-Project installed 16 new Kiosk Drop-Off Sites throughout the County during the Reporting Period.

All Kiosks were installed in pharmacies that meet all local, state, and federal requirements and that executed agreements with MED-Project. In addition, promotional materials, including signage and/or brochures, were distributed to select existing Kiosk Drop-Off Sites and Mail-Back Distribution Locations.

MED-Project provided disposal instructions for Kiosk Drop-Off Sites and Mail-Back Services to Residents and continues to communicate with Kiosk Drop-Off Site Hosts to distribute outreach materials upon request, review procedures as needed, and improve overall Program design.

As outlined in the Approved Plan, the ultimate goal of the Program is to provide Residents with convenient, safe, and accessible methods to dispose of Unwanted Medicine. MED-Project anticipates a steady increase in the number of Kiosk Drop-Off Sites in 2023 as a result of ongoing outreach and Program activities, especially if there is increased retail chain pharmacy participation in the Program.

The following Sections of the Report respond to specific reporting requirements in Ordinance Section 2209 and Regulation Section 2. Each section of the Report restates the corresponding Ordinance and Regulation (where applicable) requirements and provides the required information. In addition, MED-Project maintained the MED-Project Website and toll-free Call Center to provide information pertaining to MED-Project disposal options and outreach materials. The MED-Project Website, toll-free number, and promotional materials, such as posters and brochures, were available in the Required Languages, including English, Spanish, Chinese, Russian, and Tagalog (Filipino). The website also links to each program operator's website where Residents can request mail-back packages. See Figure 1, below. During the Reporting Period, there were 5,331 page views on the single system of promotion website.
- During the Reporting Period, MED-Project continued to coordinate a single system of promotion call center where residents who enter a San Francisco ZIP code are redirected to each program operator's call center based on an algorithm that equally distributed calls to each program.

B. Outreach Activities

MED-Project conducted the following outreach activities during the Reporting Period: provided digital, radio, and television campaigns; distributed signage and brochures; posted information on social media sites; and sent email blasts. A list of the social media and email outreach promotion activities is provided in Appendix L.

During the Reporting Period, MED-Project met the goal of continued targeted media for a combined target reach percent of 75% at a 3+ frequency for the duration of at least four weeks, at least three times per year. The outreach activities achieved a combined reach percent of 100%, 88%, and 88% at a 3+ frequency respectively, each for a duration of at least four weeks and were conducted through a variety of media channels.

MED-Project performed the following activities to achieve the goals:

- Cross Media Campaign: January – February 2022 (digital, social media, television, radio, and streaming audio) (22.8 frequency / five weeks)
- Cross Media Campaign: May – June 2022 (digital, social media, television, radio, and streaming audio) (4.9 frequency / five weeks)
- Cross Media Campaign: October – November 2022 (digital, social media, television, radio, and streaming audio) (4.7 frequency / four weeks)

The Target Rating Points calculated for the Reporting Period are 2,634.6 for digital media, 805.5 for television, and 261.0 for radio.

See Appendix M – Media Outreach Summary.

C. Proof of Medium

MED-Project offers the following documents as “proof” of the promotional system and to support outreach efforts.

- Digital advertisements: List of publishers and screenshots of social media advertisements.
- Radio and streaming audio campaigns: Media reports.
- Television campaigns: Media reports.

See Appendix N – Electronic and Media Advertisement Proof of Performance Examples.

D. Evaluation Activities

Per the Approved Plan and Sec. 2206 (a) of the Ordinance, a biennial survey was conducted with the other approved program operator on January 20, 2022, and was completed by February 14, 2022. The results of the survey were posted to the MED-Project Website on May 10, 2022.

Twenty-three percent of Residents surveyed remembered having been exposed to messaging about safe storage and disposal of unwanted and/or expired medicines. Additionally, of those Residents surveyed, 24% reported having used Kiosk Drop-Off Site locations, 3% Mail-Back Services, and 3% take-back events to dispose of expired and/or unwanted medicines in the past year. Seventy-six percent of Residents who had an opinion, believed the medicine disposal Program was easy to use, and 74% of Residents, who had an opinion felt it was convenient.

The survey also showed that 64% of providers surveyed recalled having been exposed to messaging about safe storage and disposal of unwanted and/or expired medicines. Sixty-six percent of providers encouraged their patients to use designated drop-off locations to dispose of expired or unwanted medicines in the past year. Seventy-five percent of providers believed the medicine disposal Program was easy to use, and 73% of providers felt it was convenient.

VIII. Packaging Recycling

Ordinance Sec. 2209 (a)(10): “A description of how collected packaging was recycled to the extent feasible, including the recycling facility or facilities used.”

As described in the Plan, while drug packaging is expected to constitute a significant amount of the waste incinerated under the Program, MED-Project has concluded that separation of inner and/or outer packaging from Unwanted Medicine and/or recycling of packaging would raise three significant concerns:

1. Separating and recycling drug packaging could result in the disclosure of confidential patient information appearing on prescription drug packaging;
2. Separating and recycling drug packaging could increase the potential for releases and leakage of Unwanted Medicine; and
3. Separating and recycling drug packaging could increase diversion risk by adding additional steps to the collection process and, because drug packaging is often used in drug counterfeiting, the drug packaging could be a diversion target itself.

For these reasons, the Program does not provide for the separation and recycling of packaging from Unwanted Medicine.

MED-Project education and outreach materials instruct Residents to return Unwanted Medicine at a Kiosk Drop-Off Site, via Mail-Back Services, or at a Take-Back Event, in its original container or in a sealed bag. These materials encourage Residents who transfer their Unwanted Medicine in a sealed bag to recycle all remaining packaging.

IX. Program Goals

Ordinance Sec. 2209 (a)(11): *“A summary of the Stewardship Plan’s goals, the degree of success in meeting those goals in the past year, and, if any goals have not been met, what effort will be made to achieve the goals in the next year.”*

A. Collection Goals

MED-Project strove to meet the Service Convenience Goals in Ordinance Section 2205(b)(1) during the Reporting Period through a combination of established Kiosk Drop-Off Sites and Mail-Back Distribution Locations as detailed in Appendix O; Kiosk Drop-Off Site and Mail-Back Distribution Location Reporting Period Results. Figure 3 provides a visual representation of how MED-Project satisfied the Service Convenience Goals during the Reporting Period. As described in Section VI of the Approved Plan, MED-Project set a long-term goal of increasing retail chain pharmacy participation to satisfy the Service Convenience Goals through the establishment of Kiosk Drop-Off Sites in seven of the 11 Supervisorial Districts. By the end of the Reporting Period, MED-Project had activated 16 chain pharmacies resulting in MED-Project meeting the Service Convenience Goals through the establishment of Kiosk Drop-Off Sites in six of the 11 Supervisorial Districts. During the Reporting Period, there were no Take-Back Events as a result of meeting the Service Convenience Goal through the establishment of Kiosk Drop-Off Sites and Mail-Back Distribution Locations.

As outlined in the Approved Plan, MED-Project set a collection expectation of 19,800 pounds for the 2019 collection period. MED-Project exceeded the Approved Plan’s 2019 collection goals of approximately 19,800 pounds, during the Reporting Period. Specific details on Unwanted Medicine collection through Kiosk Drop-Off Sites and Mail-Back Distribution Locations is available in Section III: Collection Method and Weights,

Appendix B, Table 3: Unwanted Medicine Kiosk Drop-Off Sites and Appendix B, Table 4: Collection Method and Weights of this Report. MED-Project will evaluate future collection goals as part of the next Plan update.

B. Education and Public Outreach Goals

MED-Project met the Plan's short-term goals. MED-Project utilized data from 2017 to establish baseline education and outreach goals for the Reporting Period and future Reporting Periods. In 2022, there were no Take-Back Events, which resulted in no press advisories. See Appendix P; Baseline Data Summary. During 2017, no messages were left by Residents, resulting in no messages returned. In 2018 the Call Center was transitioned to a staffed 24/7/365 service, and, since then, all calls are answered with no messages left by Residents.

As outlined in the Approved Plan, MED-Project has evaluated the media and public outreach program, as well as feedback collected by survey in order to make adjustments and improvements to the Program. MED-Project will continue to maintain outreach activities in the County as required in the Regulation. MED-Project will also perform the additional outreach activities, as described in the October 5, 2022, Response to Department Feedback regarding MED-Project's Written Proposal submitted June 10, 2022. These additional outreach activities included:

1. In-language outreach: MED-Project will use digital media strategy to conduct outreach activity for more inclusive reach of residents and effective communications. In 2023, MED-Project plans to include social media and digital activity in other languages (Chinese, Spanish, Tagalog (Filipino), and Russian) as part of its continued efforts to build awareness.
2. Partnership with hospitals, pharmacy chains, and healthcare consortiums: In 2023, MED-Project will develop an education package containing information that can be shared with pharmacy chains, hospitals, and healthcare consortiums for the purpose of circulating via their own existing channels of communications with patients and providers.
3. Upgrades MED-Project has made in the last 6 months relating to accessibility and language translation tools: In March 2022, MED-Project launched the refreshed www.med-project.org website with a link to accessibility tools and a translation link with over 100 languages, which utilizes Google Translate for auto-translations for every text page.

Additionally, MED-Project may revise and/or add communications materials based on changes to the Plan.

C. Collector Outreach

MED-Project continued collector outreach by issuing letters to all nonparticipating or new retail pharmacies on January 24, 2022.

X. Program Costs

Ordinance Sec. 2209 (a)(12): *“The total expenditures of the Stewardship Plan during the reporting period.”*

The total Program cost for the Reporting Period was \$866,325.39.

Safety and Security Report

Dates: February 15, 2022, and March 29, 2022

Description: MED-Project was notified by its Vendor of two apparent shipping discrepancies for unwanted medicine boxes and liners (the “Boxes and Liners”) originating from the County of San Francisco which were declared by the carrier to be lost in transit. MED-Project understands that there have been rare exceptions in which the Carrier cannot deliver a package to its destination or return it to the shipper for reasons including, but not limited to, the loss of shipping information, such as a damaged shipping label. The Vendor has reported that the Carrier has policies and procedures for managing such packages, including destruction at a permitted medical waste incinerator.

Corrective Actions Taken: For each of these shipping discrepancies, MED-Project requested the Vendor provide a detailed report of its investigation and findings including any information on the whereabouts of the Boxes and Liner. In addition, MED-Project requested: (1) any other outcomes from investigations into the apparent Box and Liner shipping discrepancy; (2) any reports Vendor makes regarding this apparent discrepancy to law enforcement or government agencies; (3) any law enforcement or government agency involvement with this apparent discrepancy; (4) any legal proceedings involving this apparent discrepancy, and (5) any changes in policy or procedure that Vendor has or is planning to make as a result of the apparent discrepancy.

Tumutulong ang mga gamot sa paglunas sa mga sakit, pamamahala ng mga pabalik-balik na kondisyon, at pagpapabuti ng kalusugan at kapakanan para sa milyon-milyong Amerikano. Importanteng inumin ng mga pasyente ang kanilang mga gamot ayon sa pagkakareseta ng kanilang tagapaglaan ng pangangalaga sa kalusugan, at ayon sa pagkakasaad sa etiketa o packaging. Mahalaga rin na tiyaking itago ang mga gamot nang ligtas para maiwasan ang di-sadyang pagkakalinom o maling paggamit ng ibang tao, lalo na ng mga bata.

Kung mayroon kang mga napaso na o hindi na ginagamit na gamot, madali lang ang wastong pagtatapon sa mga ito. Para maprotektahan ang privacy mo, pinapaalala sa mga pasyente na alisin ang lahat ng personal na mapagkikilanan na impormasyon sa mga etiketa o packaging ng gamot bago itapon ang mga hindi na ginagamit na gamot.

Outreach and Education

Part of MED-Project's mission is to reach out to the local community and educate residents about proper disposal of household unwanted medicine.

Medicines help treat diseases, manage chronic conditions, and improve health and well-being for millions of Americans. It is important that patients take their medicines as prescribed by their health care provider and as indicated on the label or packaging. It is also important to be sure to store medicines securely to prevent accidental ingestion or misuse by others, especially children.

There are a number of ways to dispose of expired or unwanted medicines. To protect your privacy, patients are reminded to remove all personally identifiable information on medication labels or packaging before disposing of unwanted medicines.

For additional information on the program, MED-Project has developed an educational toolkit which includes the materials below.
