Public Comment:

Ms. Mary McAllister stated that she was disappointed that the Best Management Practices document would not be voted on at this meeting as she would not be present for the June meeting. She stated that she attended the meeting today to thank the Council for hearing presentations representing a wide range of viewpoints before developing best management practices for our urban forest. She expressed her support for the draft that is being considered today that will ensure the preservation of the urban forest, which is in the best interest of all San Franciscans. Ms. McAllister reported on her concern with the drought and its effect on plants and trees and the destruction of Blue Gum Eucalyptus trees in San Francisco. Reference Ms. McAllister's written public comment and article on "Ecology of Eucalyptus as Exotics" explanatory document.

6. **Review and Approval of Draft Resolution 2015-03-UFC amending Urban Forestry Council Bylaws, Article III – Urban Forestry Council, Section 1: Number, to change the composition of Urban Forestry Council membership.** (Explanatory Document: Notice of Proposed Bylaws Amendment and Approved Resolution) (Discussion and Action)

7. **Committee Reports:** (Informational Reports and Discussion)
Planning & Funding Committee. Chair's Report. Committee Chair A. Sullivan reported that the Committee has been working on Best Management Practices and the Urban Forestry Council's Annual Report Survey. Council Coordinator Hui reported that the Survey would be transmitted to all City land-owning agencies in the beginning of July so a draft can be presented to the

Planning and Funding Committee in August with adoption by the Council in September. She reported on changes made to the previous year's Annual Report. Member A. Sullivan asked Council Members to provide comments on the previous year's Annual Report to the Council Coordinator. He stated that the Committee is working on identifying significant projects that have an impact on the urban forest, and asked Council Members for their input on identifying projects. Chair Flanagan and Member Sullivan reported that future presentations would be heard on the Geary Bus Rapid Transit System, Transbay and Parkmerced projects.

Landmark Tree Ad Hoc Committee. Chair's Report. Committee Chair Hillson reported that there are no landmark tree nominations at this time. She reported that still pending is an update on PG&E funding and a quote from the contractor on landmark tree markers. Member Hillson reported on the Department of the Environment's Climate Action Plan event that she and other Council Members had attended. Council Coordinator Hui reported that there has been interest in a landmark tree nomination from one of the Board of Supervisors members that she would provide future updates on.

12. **Public Comment:** Members of the public may address the Council on matters that are within the Council's jurisdiction and are not on today's agenda.

Ms. Dee Seligman stated that she attended the meeting today because she thought there would be a vote on the Best Management Practices that she has been reviewing various draft reiterations of and tracking through Committee meetings. She asked if there is a rule that allows for the delay of a vote on agenda items based on unreceived comments as she believes the public and other public agencies have had adequate time to provide comment. Chair Flanagan reported that he is unaware of a rule on this process. He stated that the intent is for the document to be thorough and not rushed and should be inclusive of entities that would still like to provide comment. A draft would be brought back again to the Planning and Funding Committee and then to the Council for a final vote.
