AUTHORIZATION

San Francisco Environment Code Chapter 3, Section 310

San Francisco city staff have been national leaders in integrated pest management (IPM) since the City passed its Integrated Pest Management Ordinance in 1996. The Ordinance governs the way pests are managed on all City properties, but does not apply to private property. Specifically, the law applies to any City staff or contractors managing unwanted insects, rodents, birds, weeds, or other organisms for buildings & landscapes that are owned by the City, even if in other counties, or leased from the City (with leases signed after 1996), such as golf courses or vendors at San Francisco International Airport.

The San Francisco Environment Code Chapter 3, Section 310, calls for a noticed public meeting at least once a year to consider issues on matters related to pest management activities on City property, including the use of certain pesticides. City departments are to explain any exemptions they were granted from the City's pesticide requirements, as well as any uses of "most restricted" pesticides.
