

Energy Efficiency Champion

Glide Memorial Church

330 Ellis Street

"We appreciate the help and guidance of SF Energy Watch staff. They led us down many green paths, and we look forward to more collaborations in energy efficiency and the greening of Glide Memorial Church."

Terry Zukoski, Facilities Manager

Description

Glide Memorial was established in 1929. Its mission is to break the multi-generational cycles of dependency, poverty, and low self-worth by providing a spiritual home of unconditional love. Glide strives to create a health community by offering effective services in an environment of cultural diversity, including free daily meals, health services, women's center, recovery program, housing, family services, drop-in emergency center, workforce development, volunteer resource program, and the Sunday celebration services with the Glide Ensemble.

Glide Memorial upgraded over 1,200 light fixtures, installed 30 occupancy sensors, and retrofit 36 LED exit signs. Also, they replaced gasket material in their walk-in cooler and installed strip curtains on doorways for two kitchen walk-in refrigerators. With almost \$16,000 of savings on their utility bills annually, Glide has more money to devote to the important services they provide to the community. The energy savings also go along with Glide Memorial Church's mission statement

Scope of Work

- Replaced 1,200 old T12 lamps with more efficient T8 lamps
- Installed 30 lighting sensors
- Switched 36 older exit signs to LEDs
- Installed strip curtains for 2-kitchen commercial walk-in refrigerators
