5. What do you think are some things you can do to help preserve and protect our Urban Forest?

What is an Urban Forest?

Answers:

1. What is an urban forest?

All the trees and other vegetation or plants found throughout the city.

2. How do trees help our City's air?

Trees absorb or take in polluted air or dirty air, and create fresh air.

3. Name the California Indigenous tribe that lived in the San Francisco Bay Area for thousands of years. What tree did they depend on for food?

The Ohlone indigenous tribe, and the California Coast Live Oak.

4. What are some fruit trees that can grow in San Francisco?

Fig, lemon, pineapple, guava, carob, avocado, small plum.

5. What do you think are some things you can do to help preserve and protect our Urban Forest?

Water and stake young trees, don't over prune trees, plant trees and gardens.
