

San Francisco's Healthy Nail Salon Program

Ventilation Systems

Thank you for participating in San Francisco's Healthy Nail Salon Program. In order to become recognized as a healthy nail salon, your salon must comply with the 9 criteria outlined in our registration form and submit an application form. One of the 9 criteria is to install a ventilation unit. Please note:

- The ventilation units will be one of the units outlined below
- The filters will need to be replaced within 6 months to 1 year of use, depending upon total usage of the ventilation unit
- In order to remain in the Healthy Nail Salon Program, San Francisco's Department of Environment will check for proof of purchase of air filters after one year of use

Manufacturer	Contact Name & number	Model Name	Protects against	Cost			Link to the website
				Base Cost	Maintenance (depending on usage)	Monthly Installment Amount
