Public EV Charging in San Francisco

Find your nearest EV charger with your phone!

Many websites and smart phone apps provide locator maps for EV chargers, and some include real-time information on the availability of networked chargers. Because there are many charger manufacturers and networks, no single app includes all charging stations, but several are quite comprehensive.

Examples of EV charger locator websites include:

www.plugshare.com/
www.chargepoint.com
www.afdc.energy.gov/afdc/locator/stations/

EV charger mobile apps:

Plugshare, ChargePoint and other apps are available for Apple & Android at
<http://www.apple.com/itunes/>
<https://play.google.com/store>
