

**San Francisco Zero Emissions Building Task Force
Existing Commercial Buildings Work Group – Kickoff Meeting
Wednesday, February 12, 2020 from 9:00-12:00am**
SF AIA Offices, Hallidie Building,
130 Sutter Street, Suite 600
San Francisco, CA

Work Group Meeting #1

This Meeting's Objective

1. Achieve common understanding of the task before the Work Group: Provide input and guidance for a roadmap by which San Francisco can achieve zero emissions in existing commercial buildings through an orderly process.
2. Gather insights from various stakeholders' on how the community can best collaborate to decarbonize large commercial buildings.
3. Begin discussion of what is needed now in order to enable the realization of zero emissions by 2050.

Agenda

Time	Item	Lead
9:00	Welcome & Introductions	Facilitator/All
9:10	Background Context of SF climate goals, emissions trajectory and mitigation gap.	Barry
9:25	Work Group Charge: Who is in the Room, Why we are here, and What we must do What we are trying to achieve here: Identify how to best get to zero emissions by 2050.	Facilitator
9:45	Decarbonizing Your Building: A Thought Exercise Imagine the step-by-step process to eliminate operational carbon emissions for a building. What could drive decarbonization to happen sooner, faster? What is unique about decarbonizing vs. other projects? What challenges do you anticipate? What does SF staff need to know?	Facilitator
10:45	Stretch Break	
10:55	Getting to Zero: What can the City of SF do to support a trajectory to zero emissions? What would you value? Are there activities or actions the City can take now to prepare for and support the rapid move to decarbonization? What policies or programs would reduce anticipated challenges?	Facilitator
11:45	Recap and Next Steps Summarize outcomes of meeting, including reviewing next steps, any assignments, and discuss goals for next meeting.	Facilitator
12:00	Adjourn
