

**San Francisco Zero Emissions Building Task Force
New Construction Work Group
Friday, January 24, 2020 from 9:00-11:00am
1455 Market St, Ground Floor Meeting Room
San Francisco, CA**

Work Group Meeting #1

This Meeting's Objective

1. Achieve common understanding of context and goal of WG: Inform development of an ordinance eliminating operational carbon emissions, promoting safety and improving resilience by eliminating natural gas infrastructure in New Construction.
2. Identify and prioritize areas (elements of an ordinance) for WG input and feedback.
3. Begin discussion of important questions related to two elements: Timing and Applicability.

Agenda

Time	Item	Lead
9:00	Welcome Today's Agenda Introductions Name, Affiliation, Connection/Interest to this WG	Facilitator All
9:10	Background Context of SF climate goals and background of this WG; About the process and outcomes	Cyndy
9:20	Takeaways from the January 8 Workshop Additions, reflections, questions	Cyndy
9:35	Elements of an Ordinance (Brief, page 1) Identify main elements of the ordinance, prioritize areas for WG to spend time on during this and next meetings.	Facilitator
9:55	Element Discussion: Timing and Applicability (Brief, page 2) What are important considerations for determining when the law goes into effect? What types of new construction should the law apply to? Not apply to?	Facilitator
10:45	Recap and Next Steps Summarize outcomes of meeting, including reviewing next steps, any assignments, and discuss goals for next meeting.	Facilitator
11:00	Adjourn
