

Zero Waste Facilitators:

Hiring a Zero Waste Facilitator can help property managers in San Francisco to maintain compliance with the City's Mandatory Composting and Recycling Ordinance and lower refuse costs. Zero Waste Facilitators can assist both commercial and residential properties with material recovery by providing education and feedback to tenants and staff to improve participation, improving collection efficiency, and reducing contamination in composting or recycling by conducting back-of-house sorting of materials.

The companies listed below are currently offering Zero Waste Facilitator services in San Francisco. This list may not include all companies providing such services, and buildings that must hire a Zero Waste Facilitator per City law are not required to hire off this list.

The quality and effectiveness of the services provided by the companies listed below are the responsibility of the contracting parties. Any company that would like to participate in the training or be added to this list should contact **Alexa Kielty** at alexa.kielty@sfgov.org.
